

JOZELLE GRACE CORONO

GRAPHIC DESIGNER

As a **Graphic Artist**, my main tasks involve conceptualizing and creating visual designs. I work on various projects, including designing layouts, choosing color schemes, and selecting typography to convey messages effectively. Image editing and manipulation are also a significant part of my role, where I enhance and optimize visuals for different mediums. Additionally, I specialize in logo design, branding, and creating engaging graphics for web and social media platforms. Staying updated on design trends and effectively communicating with clients to understand their vision and incorporate feedback are essential aspects of my work.
